What is a Mutt-i-Gree?

A Mutt-i-gree is defined as any animal, mixed or purebred, living in a shelter and waiting to be adopted. Cats are Mutt-i-grees too!
Goals of Mutt-I-Grees in the Library

• To increase awareness of shelter pets and desirability of Mutt-i-grees.

• To enhance children’s self- and social-awareness, relationship skills, and ability to make ethical decisions that benefit people, animals, and the environment through the teaching of empathy and related social and emotional skills.

• To provide libraries with plans, strategies, and materials to actively engage children and teens with fun, interactive programming that stimulates a lifelong love of learning.

• To encourage school-library collaboration, family involvement, and community connections.
